Para cubrir las demandas más exigentes llevamos a nuestras luminarias a situaciones extremas en términos de regulación, rangos de funcionamiento, altas temperaturas, congelación, conmutaciones y forzado de protecciones que se dan en situaciones reales.

Acompañamos al cliente en su necesidad de justificar el cumplimiento de los requisitos demandados por áreas de negocio o mercados como los árabes, industria alimentaria, HCL en el ámbito de educación, sanidad, geriatría, etc.

Llevamos a cabo las tareas de certificación con laboratorios y entidades acreditadas externas para conseguir los certificados de producto ENEC, CB, N, IAC, y asegurar el cumplimiento de los requisitos del CEI-IDAE vigentes.

## E

Prilux has its own laboratory equipped with the physical capability and technical competence to carry out pre-certification tests on luminaires under the UNE-EN 60598 standard and on light sources.

To meet the most demanding requirements, we subject our luminaires to extreme conditions in terms of regulation, operating ranges, high temperatures, freezing, switching, and forcing of protections that occur in real situations. We work with our customers where they need to support compliance with requirements demanded by business sectors or markets, such as Arabian markets, the food industry, HCL in education, health care and geriatric fields, etc.

We conduct certification tasks with external laboratories and accredited entities to obtain ENEC, CB, N and Canary Islands Astrophysical Institute (IAC) product certificates and to ensure compliance with current Spanish Lighting Committee/Institute for Diversification and Saving of Energy (CEI-IDAE) requirements.
